Logan received this morning a long tele-gram signed officially by the City Clerk of Chicago, embodying resolutions adopted by the City Council last night. The Counell formally requests the burial place of the dead statesman be relected in the city upon which he has conferred so much onor, in a site to be dedicated for the purpose. The Council appointed a committee to confer with committees of civic and military organizations in regard to the seection of a place of burial and arrangements for the reception and interment of

the remains. The decision is practically reached to have the funeral services in the Senate Chamber next Friday, and then convey the remains to Chicago, though few of the details of arrangements have yet been de-termined upon. The Senate Committee, acting through the Sarganatat-Arms, will have immediate charge of the remains. Cof. The Catholic Ohurch does not advocate the abolition of property in land, and will not do so. That is Communism, and the church has promouned against Communism. Besides, it is absurd to say that the abolition of property in land and Will remedy the evils of poverty. Its effect, on the contrary, will be to intensify them. I do not know what Dr. McGilynn intends to do shout going to Rome, but my own opinion is that he is not going. As to latitude, there is no latitude. He has been summoned to Rome, and he is expected to go at once. Of course, if he has written to Rome submitting any good reason why he cannot go immediately, he will be granted a reasonable extension of time, but I do not believe he has done this. I believe he has simply ignored the whole matter.
